

European Lighting Industry CELMA-ELC LED Forum Light+Building Fair 2012, Frankfurt

Wednesday 18th April 2012 from 10.00 to 13.00
followed by a buffet lunch until 14.00

ZVEI Lounge area in the entrance zone of Hall 4.0 – Room Europa

DRAFT AGENDA (version 23/03/2012)

10.00 – 10.10

Welcome & Introduction

- ❖ Presented by ELC President, Jan Denneman

10.10 -11.15

Session 1: Draft new EU EcoDesign and Energy Labelling Regulations for lighting products – Session moderated by Stéphanie Mittelham, CELMA Managing Director

- ❖ Presentation of the draft new EU EcoDesign and Energy Labelling Regulations for lighting products by Andras Toth, European Commission, Directorate General Energy, Energy Efficiency of Products & Intelligent Energy Europe Unit
- ❖ Expected impacts of the new EU Regulations for the European Lighting Industry:
 - Presentation on the impacts on light sources by Lars Stühlen, ELC
 - Presentation on the impacts on luminaires and controlgear by Fabio Pagano, CELMA
- ❖ From Paper to Reality - the Need for Functioning Market Surveillance by Otmar Franz, ELC
- ❖ The CELMA Apples & Pears Guide; why standardisation of performance criteria for LED luminaires is important by Kay Rauwerdink, CELMA

11.15-11.45

Coffee Break

CELMA

*Federation of National Manufacturers Association for
Luminares and Electrotechnical Components for
Luminares in the European Union*

11.45-12.45

Session 2: Shaping the Future - The European Union Green Paper on Solid State Lighting – Panel Discussion moderated by Jürgen Sturm, ELC Secretary General

The EU Green Paper Lighting the Future (COM (2011) 889 final) will shape the future of Solid State Lighting (SSL) in Europe and will address the need for accelerated uptake of SSL technology as well as improving competitiveness of the European Lighting Industry. Based on impulse interventions from the European Commission, the industry, Photonics21 and other stakeholders of the value chain, this panel discussion will aim to set the scene for successful implementation of the Green Paper and discuss the role of different stakeholders in this process.

Panelists:

- ❖ Michael Ziegler, European Commission, Directorate General for Information Society and Media, Photonics Unit
- ❖ European Lighting Industry:
 - Kees van Meerten, ELC
 - André ten Bloemendal, CELMA
- ❖ Representative from Photonics 21
- ❖ Representative from AIE, the European Association of Electrical Contractors (*tbc*)
- ❖ Possible representatives from other stakeholders of the SSL value chain

12.45-13.00

Conclusions and end of the meeting

- ❖ Presented by CELMA President, Alvaro Andorlini

13.00-14.00

Buffet lunch

*Note: The **Global Lighting Association** (<http://www.globallightingforum.org>) will host a workshop on current issues of global standardization in the same room meeting from 14.00 to 16.00, followed by a reception. Special invitations will be sent for this event.*
