Apollo Concept

Apollo Summary

- Usable for the most common specifications in Europe: S, CE & Me class and in the US
 - Modular concept, adjustable to various street configurations (street widths & pole heights)
 - Performance is 4x MH (pole height /pole spacing)
 - Fulfills full cut-off regulation
 - 0 degrees tilt of luminaire
 - Need custom reflector design (FLS/PLLC can assist)
 - Requires automatic vision assisted lens assembly equipment for NX02 lens
-
